## PROFILE

I am Charles Joshua B. Lucero, a proactive and detail-oriented Information Technology student at the University of Saint Louis - Tuguegarao, specializing in Front-End development. With hands-on experience in mobile software development during our research project, I bring a commitment to excellence, anticipating industry needs and staying abreast of cutting-edge technologies. I possess a global perspective, drawing inspiration from diverse academic backgrounds. Eager to contribute my skills during my OJT, I look forward to learning and growing within your esteemed organization.

-----------------------------------------------------------------------------------------------

## ACHIEVEMENTS

2023
Computer System Servicing NC II Passer

2023
Qualifier for the International Conference on Information Technology Education (ICITE)

## PROJECTS

- WEB PORFOLIO

  My web portfolio is a comprehensive online showcase designed to display my project, education, contact information, skills, and achievements. It serves as a dynamic platform, presenting detailed case studies and project descriptions to highlight my expertise. This portfolio aims to establish a strong professional brand, enhance career opportunities, attract clients, and facilitate networking by providing a centralized and visually appealing representation of my capabilities.
